

VectorVMS

Time-tested Vendor Management Solutions for the Future of Work

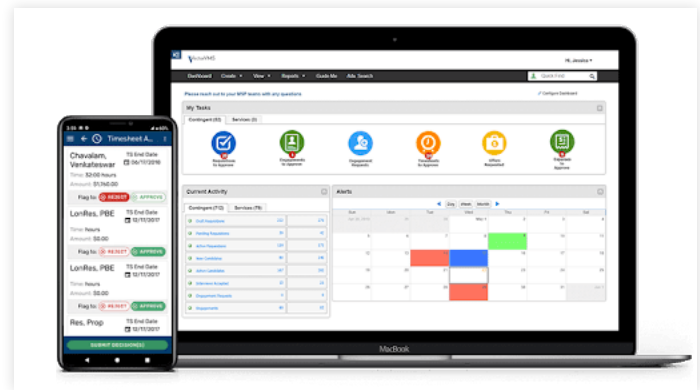

About VectorVMS

VectorVMS delivers cloud-based vendor management solutions to help businesses optimize their contingent workforce programs. With over 20 years of industry-leading experience, we have the proven strength and stability to provide solutions for all types of contingent labor—from freelancers, gig workers and temporary staff, to statement of work-based consultants and contractors.

Our Technology

We help clients simplify and streamline their contingent workforce programs in order to control costs, maintain compliance, and drive quality and efficiency throughout the contingent labor lifecycle.

With our highly configurable application, you can implement quickly and economically.

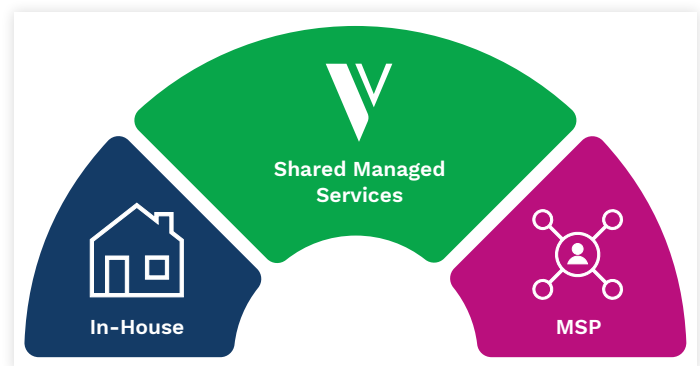

Flexible Delivery Options

Manage your VMS independently, engage our Shared Managed Services (SMS) team, or outsource your contingent labor program entirely to a Managed Service Provider. Our VMS solution adapts to your organization's approach and business needs.

Hybrid Model: Shared Managed Services

Our unique Shared Managed Services (SMS) program allows us to augment client resources with a team of experienced program managers who provide operational support, white-glove service, and advice on industry best practices. This model allows you to control key decision factors while offloading operational tasks.

Rapid Implementation

Our implementation services team takes an agile, thorough, customer-focused approach to implementation. We'll lead your team through system configuration, data loading, and user training—so you can start reaping the benefits of automation and visibility in weeks, not months.

Key Benefits

Control Costs

Eliminate uncontrolled spend with total budget visibility

- Manage timesheets, volume discounts, and overtime rates
- Set real-time budget alerts to track allocated project funds
- Standardize and rationalize rates to meet market expectations
- Eliminate rogue spend

FACT: Most organizations see 5-10% cost savings when they implement a VMS.

Comply with Confidence

Maintain compliance across the contingent labor lifecycle

- Track compliance by position and location
- Manage NDAs, background checks, drug screens and certifications in one place
- Ensure that compliance items do not expire during the lifetime of your candidate

FACT: You can reduce risk by integrating your background checks directly into your VMS.

Boost Efficiency

Automate and streamline HR and procurement processes

- Reduce fill times with well-defined, automated processes in your VMS
- Manage NDAs, background checks, drug screens and certifications in one place
- Approve timesheets and expenses on the go with the mobile app.
- Use 120+ standard reports to drive informed program decisions

FACT: A VMS can drastically reduce the error that occurs when using email and spreadsheets to manage your contingent workforce.

Elevate Quality

Easily compare candidates and track vendor performance

- Enable hiring managers to specify skills and easily compare candidates
- Track candidate performance and designate those you would work with again
- Flag candidates who perform poorly to prevent re-engagement
- Track vendor performance with dynamic ranking tools and analytics

FACT: Managers can save time using candidate compare ranking to see candidates side-by-side.

“

We're thrilled that both customers and analysts at Spend Matters have noted VectorVMS as a leading vendor management and contingent workforce management solutions provider.

- Marc Husain, Managing Director, VectorVMS
